3. Acronyms and Abbreviations .........................................................................................................29
1. **GENERAL INFORMATION**

1.1 **SYSTEM OVERVIEW**

Vtrade is a flexible, scalable and extremely efficient web enabled Order Management System, using client-server architecture, which allows a secure and efficient way of orders placement through the WAN (Internet) and LAN.

It enables Customers to place orders electronically via the Internet. Once the order is placed customer can view order status (i.e. executed, pending or rejected). All the portfolio of client is being managed at broker’s Backoffice System.

1.2 **AUTHORIZED USE PERMISSION**

This document shall not be duplicated or distributed, and the information contained herein shall not be disclosed in whole or in part, for any purpose other than to evaluate this document within the organization for this project only.
2. GETTING STARTED

2.1 SIGNING IN

Sign-in window is by default opened when application starts, it can also open from File Menu as shown in Fig 1.

![Sign In Page](image-url)
† **User ID And Password**

Every client must have its own unique User ID and Password.

† **Server**

Every Broker has its own server short name which will be given by the broker. (It can be editable by clicking the checkbox just beside the lock icon).

† **Sign In**

After entering User ID, Password and Server short name, press "Login" Button.
2.2 **MAIN WINDOW**

After Sign In, the Main Window appears as Shown below. On this page the user finds the following information.
❖ **Menu Bar**

Menu Bar is on top left side of the window. It contains following options:

- File
- Monitor
- Trade
- Services
- Services
- Graph
- Help

❖ **Shortcuts Bar**

Shortcuts Bar lies besides the Menu Bar on the top of the window. It contains following options:

- Market Watch
- Buy order
- Sell order
- Cancel Orders
- Executed Trades
- Outstanding orders
- Portfolio
- Net Equity
- Order History
- Graph Intraday
- Graph History
- Graph Advance
- **Settings**: Change font Style / Color / Size and Multiple styling of market window
- **Shares Filter**: Fill market window with shares as described by the Filter
- **User Profile**: these are basically multiple pages of market

</table>

Under market all the information regarding shares and securities (with respect to current market) are displayed. Highlighted tuple shows that the change is taking place only in highlighted column. In main window, each row represents the information about the particular security.

- **Market**: REG / FUT / SIF etc.
- **Symbol**: Company symbol appears here.
- **P. Close**: Last day’s rate.
- **Last Rate**: Rate per share in the market.
- **Last Vol**: Last Traded volume.
- **Buy Vol**: Number of shares Client Interested in buying.
- **Buy**: Buying Rate per share.
- **Sell**: Sell Rate per share.
- **Sell Vol**: Number of shares client wants to sell of a particular company.
- **Total Vol**: Total number of shares (BVol + SVol).
- **Dir**: Compare current rate with the Close rate and then determines ‘+’ for up or profit and ‘-’ for down or loss.
- **L Trd Time**: Last trade time.
- **Avg**: Average rate between the Current and Close rate.
- **High**: Highest rate of the day for a particular share.
- **Low**: Lowest rate of the day for the particular company.
- **Flag**: whether symbol is on Spot or Not.
- **Chg**: Change in rate (closed – current). Figure written with blue means *no change in rate*. In green means *current rate is higher than the closed rate*. In red *current rate is lower than the closed rate*.

**Market Statistics**

Market statistics provide you a brief description about the market. It includes:

- **Index**: Selection of Index.

![Index Selection](image)

- **Current**: Selected index current value.
- **Change**: Change from previous day of selected index.
- **High**: Maximum value touched of selected index.
- **Low**: Minimum value touched of selected index.

- **Volume position**: Volume, Value and Avg (Average Traded Price of Per Share) of All Share Index.

![Volume Information](image)

- **Share position**: current position of shares according to index. How many share values are increased (green) or decreased (red) or unchanged (blue)?
2.3 **File Menu**

File Menu provides functions and also depicted in figure below

- Login
- Logout
- Change Password / Pin
- Lock
- Exit

2.3.1 **Login**

Client can open a “Sing-in” window from the login option as show in Main Window – File Menu. In current window, Log In link is disabled, as client is already logged in.

2.3.2 **Logout**

Client can log out form the logout option given under File Menu.

2.3.3 **Change Password / Pin**

To change Password / Pin, Client has to insert his/her old, new, confirm Password / Pin and then press Change Password or Change Pin button.
2.3.4 **Lock Screen**

Client can lock his screen and will be unlocked after inserting his password and then pressing unlock button.

2.3.5 **Exit**

Your screen will be closed.
2.4 Monitor Menu

Monitor menu has following options as shown in following figure

2.4.1 Market Watch (Shortcut Key F2) – See Above

2.4.2 Index Window (Shortcut Key CTRL+S)

Exchange statistics provide you a brief description about the market. It includes:

- **Index**: Types of different indexes in Stock Market.
- **Volume**: total number of shares traded.
- **Value**: total amount of shares traded.
- **Previous**: last day index value / rate at which market closed.
- **Current**: Current index value.
- **High**: How much scrip value is increased from the last day.
- **Low**: how much scrip's value is decreased from the last day.
- **Change**: Current – Previous.
2.4.3 **MESSAGE WINDOW**

It displays the messages. Messages can be of Trade related confirmation and/or market status related messages.

2.4.4 **MARKET BY ORDER (SHORTCUT KEY CTRL+F1)**

Market by Order is list of orders (of specific symbol) queued in the market. Buy Side is sorted descending, which shows buyer with the highest price is at the top. Sell side is sorted ascending, which shows seller with the lowest price is at the top.

2.5 **TRADE MENU**

Before going forward there certain things which have to be comprehended, those are (but not limited to)

- **TICK SIZE:**
  The Tick Size will be 1 (one) paisa for all orders placed on IBTS, unless otherwise specified in the relevant Regulations governing a specific market.

- **QUEUE PRIORITY:**
  1) Orders that cannot be immediately executed shall be queued for future execution in a specific order of priority mainly based in the following order:-
     a) Price
     b) Time of entry
  2) In case an order is executed partly, the remaining part of such Order shall not lose its priority.

- **CANCEL ORDER:**
  A Cancel Order can only cancel an outstanding order.

- **CHANGE ORDER:**
  Change Order can only modify the price of an outstanding order. The change order option availability depends on the policy of the Brokerage House / TREC Holder.

### 2.5.1 BUY ORDER

Client can buy shares/certificate by either selecting the Buy Order from “Trade” menu or simply hit the F4 key. It can also be accessed from the shortcut bar menu as shown in figure below.
After selecting the Buy Order Option, following Window appears.

Buy order contains the following fields and all are considered necessary to fill (except marked as *

❖ **Order Type**

A drop down bar is given from which client can select desired order type.

Order type includes:

- **LIMIT**: A particular rate is defined in this section if the market cross the rate, shares either buys automatically.
- **MARKET**: The client does not have to specify rate under this option. It buys shares on the market rate.
- **STOPLOSS**: Stop Loss buy order is activated when the price of the share drops to or below the trigger price.

Stop loss buy order is only accepted if the trigger price is greater than the last trade price. Among the two price levels i.e. trigger price and limit price the trigger price should be less than or equal to the limit price.
- **MIT (Market If Touched):** MIT buy order is activated when the price of the share reaches a specific price. MIT Buy order would only be accepted if the trigger price is less than the last trade price. Among the two price levels i.e. trigger price and limit price the trigger price should be greater than or equal to the limit price.

- **Volume**
  Number of shares client wants to buy.

- **Symbol**
  Symbol of the particular company.

- **Price**
  It is defined as rate per share. Rate is defined on the basis of order type.
  - If client selects **Limit** in order type field, he/she sees that market is going downward then places an order of limit (with an lower value of the scrip than that at which it was traded last time ) if the market reaches this rate or better his/her order will be executed.
  - In **Market** option the client does not specify any rate it automatically detects the current rate.
  - If **Stop loss** is selected, to protect profit and stop loss. Either if market is going high user can place Stop loss order of buy at higher price to protect his profit from risk of market’s downfall.
  - In **MIT** option, a order that becomes a market order when a security reaches a specified price. When using a buy market-if-touched order, a trading engine will wait until the security falls to a certain level before purchasing the symbol.

- **Account**
  You have to mention your account name here. (By default your account will be filled)

- **PIN Code**
  Every client has given a unique PIN Code which he/she has to enter to perform the action.

- **DiscVol**
  DiscVol (disclosed volume) is to hide the order volume in the market, only the total Order Volume – disclosed volume will be visible in the market.
Submit
After filling the form press submit button and your order is included in outstanding order list.

Exit
Exit button is used to exit from the window.

2.5.2 SELL ORDER
Client can sell shares/certificate by either selecting the Sell Order from “Trade” menu or simply hit the F5 key. It can also be accessed from the shortcut bar menu as shown in figure below.

After selecting the Buy Order Option, following Window appears.

Sell order contains the following fields and all are considered necessary to fill (except marked as *).

Order Type
A drop down bar is given from which client can select desired order type.
Order type includes:

- **LIMIT**: A particular rate is defined in this section if the market crosses the rate, shares either buys automatically.
- **MARKET**: The client does not have to specify rate under this option. It buys shares on the market rate.
- **STOPLOSS**: Stop Loss sell order is activated when the price of the share drops to or below the trigger price.
  Stop loss sell order is only accepted if the trigger price is less than the last trade price. Among the two price levels i.e. trigger price and limit price the trigger price should be greater than or equal to the limit price.
- **MIT (Market If Touched)**: MIT sell order is activated when the price of the share reaches a specific price.
  MIT Sell order would only be accepted if the Trigger price is greater than the last trade price. Among the two price levels i.e. trigger price and limit price the trigger price should be less than or equal to the limit price.

- **Volume**
  Number of shares client wants to buy.

- **Symbol**
  Symbol of the particular company.

- **Price**
  It is defined as rate per share. Rate is defined on the basis of order type.
  - If client selects **Limit** in order type field, he/she sees that market is going downward then places an order of limit (with an lower value of the scrip than that at which it was traded last time ) if the market reaches this rate or better his/her order will be executed..
  - In **Market** option the client does not specify any rate it automatically detects the current rate.
  - If **Stop loss** is selected, to protect profit and stop loss. Either if market is going high user can place Stop loss order of buy at higher price to protect his profit from risk of market’s downfall.
  - In **MIT** option, a order that becomes a market order when a security reaches a specified price. A sell market-if-touched order will activate when the price of a security rises to the specified level..
❖ **Account**
You have to mention your account name here. (By default your account will be filled)

❖ **PIN Code**
Every client has given a unique PIN Code which he/she has to enter to perform the action.

❖ **DiscVol** *(Undisclosed Order)*
DiscVol (Disclosed volume) is to hide the total order volume in the market, only the Disclosed volume will be visible in the market. This option requires min. volume of 100,000 shares and not less than 10% of total volume can be disclosed.

❖ **Submit**
After filling the form press submit button and your order is included in outstanding order list.

❖ **Exit**
Exit button is used to exit from the window.
